

Addonics 4-in-1 DigiAdapter Installation Manual **(Model: AD4IN1PCMCIA)**

Thank you for purchasing Addonics 4-in-1 Digidrive Adapter. This 4-in-1 Digidrive Adapter provides you the easiest way to Read/Write to your SecureDigital Card, Multimedia Card, Memory Stick and SmartMedia Card via PC card(PCMCIA)adapter. This drive is to be used for all systems running on the Intel or AMD (or equivalent) Microprocessors.

Introduction:

Features:

- Converts SM/SD/MMC and MS to standard Type II PC Card
- Fast Access Speed, Transfers data from memory cards to any PCMCIA interface equipped device like card reader, notebook, Desktop etc.
- Conforms to 8-bit and 16-bit access.

System Requirements:

PC: Hardware

IBM PC compatible computer with PCMCIA support.

Software

Microsoft Windows 95/98/98SE/Me/NT4.0/2000/XP

MAC: Hardware

Power Book with PCMCIA support

Software

MAC OS 9.0 or higher

How to USE

**Insert and Push the Card in the 4-in-1 DigiAdapter Socket until it stops.
Now insert the DigiAdapter to the notebook PCMCIA socket.**

Note: Insert only one card at one time.

- In Windows Machine, you will see a new Removable Disk Icon.
- In MAC OS, a new UNTITLED DISK icon will show up on the screen.

Technical Support

If you need assistance to get your unit functioning properly, please call Addonics Technical Support. Our technical staff will be happy to assist you, but they will need your help to do so. Calling the technical support staff without all the proper information can be both time consuming and frustrating. Please have all the information handy like the model number, operating system etc.
